

Speech Therapy Games, Toys and Books List 2018-2019

Compiled by the South Shore Therapies Speech Staff

Children learn language naturally through play and active exploration. A wide variety of toys and games encourage learning and help to develop skills in understanding language, oral expression, and social language use. The following suggestions will be helpful in choosing appropriate toys to target various language skills while keeping your child engaged. Approximate ages and skill levels have been provided to help guide your choices. Many items can be purchased at toy stores or through catalogues and websites such as Amazon. Ask your speech therapist for help in deciding which games or toys are recommended for your child.

Highlights Magazine

Many toys can be purchased through local toy stores such as Rock, Paper, Scissors (Duxbury), The Toy Box (Hanover), Harbor Light Toy Company (Scituate), Buttonwood Books and Toys (Cohasset), and Marble the Brain Store (South Shore Plaza). Online sites such as Amazon.com carry most of these items as well.
